

REMARKS

By the present Preliminary Amendment, the title has been revised consistent with the title provided on the front of the application and in the Declaration. In addition, the abstract has been revised to single paragraph format, shortened to comply with the word number requirement and revised so that it is believed to comply with the provisions set forth in 37 C.F.R. §1.72(b) and MPEP §608.01(b). Furthermore, certain revisions have been implemented in the specification and the claims have been amended to remove an extraneous term in claim 2, to remove all multiple dependency and to add new claims so that the scope of the original multiple dependent claims has been preserved. It will be understood that the revisions to the claims are solely for formalistic purposes and not with regard to patentability.

Favorable consideration on the merits is respectfully requested.

Should the Examiner wish to discuss any aspect of the present application, the Examiner is invited to contact the undersigned attorney at the number provided below.

Respectfully submitted,
